12×3inch SCAFFOLD CASTER

Part No.: SCUPB-300075R-13
SKU: 6930000010000

DESCRIPTION

SCUPB series 12-inch Mold-on polyurethane on semi steel core heavy duty scaffold caster are equipped with total lock brakes. This is a heavy-duty universal caster specially designed for the standing and short-distance movement of heavy equipment and heavy construction scaffolding equipment. 3500lbs load capacity per caster. This caster features an easy to engage total locks that locks both wheel and swivel and allow easy locking and repositioning. SCUPB series caster has the characteristics of scientific design, convenient operation and safe use.

FEATURES

- Top plate: The integrally formed 1045 cast steel top plate can effectively prevent deformation. King bolt and nut construction for added strength.

- CNC high-precision machining double ball raceway designed with grease fitting, easy to maintain and maintain.

- The housing is made of high-quality pressed thick steel and double-sided welding, which can withstand high load environment.

- Features an easy to engage total locks that locks both wheel and swivel and allow easy locking and repositioning.

- Moldon polyurethane on semi steel wheel with high strength and large size roller bearing.
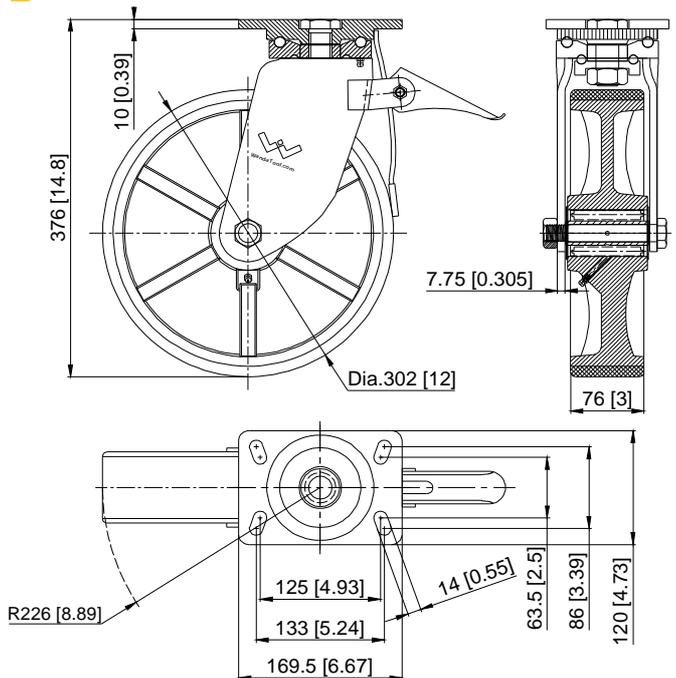

TECHNICAL DATA

TECHNICAL	°C / mm / kg	°F / inch / lbs
Wheel Diameter	300mm	12inch
Width of Tread	75mm	3inch
Wheel Material	Moldon polyurethane on semi steel core	
Hardness of Tread	Shore A 95	
Wheel Bearing Type	Roller bearing	
Mounting Plate	Top plate	
Top Plate Size	169×120mm	6.67×4.74inch
Plate Hole Centers	133×86mm 125×62.5mm	5.24×3.39inch 4.93×2.5inch
Plate Hole	14.0mm	0.55inch
Swivel Offset	75mm	2.95inch
Swivel Radius	226mm	8.89inch
Overall Height	376mm	14.8inch
Load Capacity	1500kg	3000lbs
Caster Weight	21kg	46lbs
